Education

BS Computer Science from - PAF-KIET (2020-2024)

FYP Project

The Wedding Spot

Technologies: React.js, Material UI, Stripe, Express.js, Node.js, MySQL

- Designed and developed a full-stack wedding hall booking platform with three user roles: **Buyer**, **Vendor**, and **Admin**.
- Enabled Buyers to browse and book wedding venues, and Vendors to post listings with availability.
- Implemented **Stripe** integration for secure and seamless online payments.
- Added **Tawk.to** live chat support for real-time customer interaction and improved user engagement.

Skills

Languages: JavaScript, Python, C#, HTML, CSS

Libraries: React.js, React native, Tailwind CSS, Material UI
